LADIES' DELIGHT!

RELIEF COME AT LAST.

WISNER'S Washing Machine, Patented Sept. 26th, 1851, is a large tub with zinc lined on the bottom, also on the inside of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands at the West within the past year, who pronounce it to be the best labor saver ever offered to the public. It has been tested sufficiently long to prove that when ever it has been used properly, it will tell a better story for itself than I can communicate. Give it a trial, and you will be entirely satisfied of its superior merit.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY, Solicitor of PATENTS (Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 STATE, OPPOSITE KILBY ST.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research es made into American or Foreign works, to determine the validity or utility of Patens or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. Thesd besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practicioners with whom I have had official intercourse.

CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDM'D BURKE,"

Late Commissioner of Patents.

Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me FIFTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

200 pounds will cover as much surface, with the same body, as 250 pounds of lead—showing great economy as well as beauty.

In order that parties may depend upon getting the article *strictly pure*, they should buy of none but the most *respectable houses.* The Company ship but two qualities, known as *No. 1 and Snow White Dry.* Red and Green Seal. The No. 1, or Red Seal, is the article most used for painting purposes, the Snow White, or Green Seal, being only used for the most expensive work.

NEW AGRICULTURAL SETTLEMENT.

TO ALL WANTING FARMS, A RARE OPPORTUNITY IN A DELIGHTFUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD, NEW JERSEY.

An old estate is consisting of several thousands of acres of *productive soil* has been divided into Farms of various sizes to *suit the purchaser.* A population of some *Fifteen Hundred*, from various parts of the middle States and New England have settled there the past year, improved the places, *and raised excellent crops.* The price of the land is at the low sum of from $10 to $20 per acre, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables.* IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement.* The result has been, that within the past year, some *three hundred houses* have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the

BEST IN THE UNION.

Production bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settlers has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in *a settled country where every improvement of comfort and civilization is at hand.* He can buy every article he wants at the cheaper price, and sell his produce for the highest, (in the West this is reserved.) He has schools for his children, *divine service*, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown.—The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $14 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be induced to examine the land before purchase. Like all other cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvement and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, THE RAILROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THIRTY YEARS.

THE TOWN OF HAMMONTON,

In connection with the agricultural settlement, a new and thriving town has naturalarisen, *which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business* could be carried on in the place and market to good advantage, also cotton business, and *manufactories of agricultural implements, or Foundaries for casting small articles.* The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots, of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from $100 and upwards.

The *Hammonton Farmer*, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid Route to the land: leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7 1-2 A. M, or 4 1-2 P. M. Fare 90 cents.—When there inquire for Mr. Byrnes: Boarding conveniences on hand. Horrible Massacre by the Indians.

The latest Salt Lake mail brings the details of another Indian massacre, which occurred 25 miles west of Fort Hall, on Lander's Cut-off, on the night of the 2d of September, on a party consisting of six men, three women and ten children, part from Michigan, and part from Buchanan county, Iowa. The massacre must have been a most horrible one. The emigrants were surrounded just as they were about camping, and shot down before they had time for defense: Some who escaped, fell a soon after with a company of dragoons under command of Lieut. Livingston, who sent a detachment to the massacre. The ollowing is the description of what they ffound:

"After informing the command of our distress, Lieut. Livingston sent a detachment of nine men, with one of our company to pilot them to the place of the massacre. On their arrival they found the dead bodies of five persons on the ground, out of the eight that were missing. The dead were horribly mangled and scalped. One little girl, five years old, had both her legs cut off at the knees; her ears were also cut off, and her eyes were dug out from their sockets; and to all appearances the girl, after having her legs cut off, had been compelled to walk on the stumps, for the sole purpose of gratifying the hellish propensity of savage barbarity.

Their animals were taken and their wagons plundered according to the usual mode of Indian spoliation.

The names of the murdered are—Edward Miltimore, Sen., James Miltimore, Jr., William Miltimore, Mary Ellen Miltimore and Myron Cline.

Missing—Mrs. Miltimore and child three months, and Albert Miltimore.

Escaped—Milton J. Harrington, wife and child; A. Hill, wife and child, Geo. Alonzo, Nelson Miltimore, Frank Hubbard, Nathan Titus and Wm. Marsh.

Mr. Miltimore's two oldest sons were absent from the family, at the onset, hunting ducks. Had it not been for this circumstance, there probably would not be a single member of the family left. Upon hearing the firing and hooping in the direction of their father's teams, the sons hurried to render succor. Arriving near the scene, and seeing from the number of Indians that an attempt at resistance on their part would result in the loss of their own lives, without rescuing those of their friends, they beat a hasty retreat for the parties ahead.

After the Indians completed their work of murder and plunder with the Miltimore party, they crossed ahead and attacked the remainder of the train, and were kept at bay by the emigrants, until darkness closed upon the scene, when the assailed finding further resistance futile, made their escape, leaving the Indians possessors of their stock and goods. They travelled on foot two days without anything to eat, and finally reached a military post. Mr. Harrington discovered an Indian pursuing them during their retreat, and shot at him. He thinks he killed the red skin. The survivors are now at Camp Floyd, in a destitute condition.

A GHOST STORY.—Mr. Hector M'Donald, of Canada, was recently on a visit to Boston. When he left home his family were enjoying good health, and he anticipated a pleasant journey. The second morning after his arrival in Boston, when leaving his bed to dress for breakfast, he saw reflected in a mirror the corpse of a woman, lying in the bed from which he had just risen. Spell-bound, he gazed with intense feeling and tried to recognize the features of the corpse, but in vain; he could not even move his eyelids; he felt deprived of action, for how long he knew not. He was at last startled by the ringing of the bell for breakfast, and sprang to the bed to satisfy himself if what he had seen reflected in the mirror was real or an illusion. He found the bed as he had left it, he looked again into the mirror, but only saw the bed truly reflected. During the day he thought much upon the illusion, and determined next morning to rub his eyes and feel perfectly sure that he was wide awake before he left his bed. But notwithstanding these precautions, the vision was repeated with this addition, that he thought he recognized in the corpse some resemblance to the features of his wife.

In the course of the second day he received a letter from his wife, in which she stated that she was quite well, and hoped that he was enjoying himself among his friends. As he was devotedly attached to her, and always anxious for her safety, he supposed that his morbid fears had conjured up the vision he had seen reflected in the glass, and went about his business as cheerfully as usual. On the morning of the third day, after he had dressed, he found himself in thought in his own house, leaning over the coffin of his wife. His friends were assembled, the minister was performing the funeral services, his children wept—he was in the house of death. He followed the corpse to the grave; he heard the earth rumble upon the coffin; he saw the grave filled, and the green sods covered over it; yet, by some strange power, he could see through the ground the entire form of his wife as she lay in her coffin.

He looked in the faces of those around him, but no one seemed to notice him; he tried to weep, but the tears refused to flow; his very heart felt as hard as a rock. Enraged at his own want of feeling, he determined to throw himself upon the grave and lie there till his heart should break, when he was recalled to consciousness by a friend, who entered the room to inform him that breakfast was ready. He started as if awoke from a profound sleep, though he was standing before the mirror with a hair-brush in his hand.

After composing himself, he related to his friend what he had seen, and both concluded that a good breakfast only was wanting to dissipate his unpleasant impressions. A few days afterwards, however, he received the melancholy intelligence that his wife had died suddenly, and the time corresponded with the day he had been startled by the first vision in the mirror. When he returned home he described minutely all the details of the funeral he had seen in his vision, and they correspond with the facts. This is probably one of the most vivid instances of clairvoyance on record. Mr. M'Donald knows nothing of modern spiritualism or clairvoyance, as most of his life has been passed upon a farm and among forests. It may not be amiss to state that his father, who was a Scotch Highlander, had the gift of "second sight."—*Boston Traveller.*

LOCAL INTELLIGENCE.

Local Gossip.

The elongation of the evenings and the evaporation of the sources of summer amusement and recreation, has left our people with the same measure of ennui which succeeds the closing up of the fashionable season each year, and already they begin to cast about them for something to relieve the monotony of the passing days and nights—something to think about and talk about. A course of popular lectures is among the things talked of. We are satisfied, from the experience of the last lecture season, that such, if rightly brought out, would receive the countenance and patronage of almost the entire community. Those given last season, under the auspices of the Musical Institute and Hercules Engine Company, No. 7, gave almost universal satisfaction, and managed as they were, were no doubt quite remunerative. We have material of the same sort for another course, which would be better on the whole, perhaps, than to send abroad for speakers at a heavy expense which this community have never been able to meet. We think if the entire Fire Department would unite in such a project, dividing and devoting the proceeds to some laudable purpose, they would be well patronized.

Speaking of lectures reminds us that next Monday evening Atlantic Division, No. 6, S. of T., in conjunction with the City Temperance Society, hold the first of a series of Temperance meetings in the Thames Street Methodist Church, which if conducted in a proper spirit will doubtless be productive of much good.

☞ Two children, a boy and a girl, the latter 11 and the former 9 years of age, were landed here by the steamer Empire State yesterday morning, having made the passage from Ireland to the United States, with no other than the casual protection of those on board the ship. On landing here they were taken in charge by the Watch, and in the morning forwarded by Marshal Seatle, by the Ferry, to Providence, where their parents reside.

☞ Capt. H. B. Rider, of this city, was on board the steamer Champion, which was run into and sunk in Long Island Sound Monday night, as reported in another column. He escaped in only his night clothes, and was taken to New York with the other passengers.

☞ We learn that the Rev. Dr. Elliott, Bishop of Georgia, has resigned the Rectorship of Christ Church, Savannah; and that the Rev. Dr. Balch, of this city, has received a unanimous call to fill the vacancy.

Terrible Railroad Accident.

CHICAGO, Nov. 1.—A terrible accident occurred on the Chicago and North Western railroad this forenoon. A train, consisting of thirteen cars, filled with excursionists from Fond du Lac for Chicago, ran off the track at Johnson Creek, eight miles South of Watertown, Wis. Eight persons are reported killed, and a number badly wounded.

The names of the killed, as far as known, are M. J. Thomas, United States Marshal; Mr. Boardman, and George F. Emerson.

The names of the badly injured, as far as ascertained, are A. B. Bonelstel, Indian Agent; J. L. Gillett, Judge Flint, Mrs. Redford and Van Buren Smead—all of Fond du Lac.

SECOND DISPATCH.

In addition to those previously reported killed, are the following:—Jerome Mason, telegraph operator; T. L. Gillet and J. Snow, of Fond du Lac; John Lund, C. Petersilia and L. Sherwood, of Oshkosh; Dr. T. Miner, of Watertown. The injured are as follows:—E. H. Sykes, both legs off; Mrs. Lewis, leg broken; Mrs. James Kenney, leg broken; Mrs. Baldwin, of Oshkosh, both legs broken; Mr. Van Buren Smead, editor of the Fond du Lac *Press*, skull fractured, and not expected to recover.

The accident was caused by the train running into an ox.

NEW YORK, Nov. 2.

STEAMBOAT CHAMPION SUNK.—The steamboat Champion, which left this port at three o'clock yesterday afternoon for New Haven in place of the steamer Traveller at about half-past five o'clock this morning, when off Matinicock Point, came in collision with the propeller Albatros of Providence, which struck her amidships, cutting her down to the water's edge. The propeller immediately took her in tow and grounded her on Red Spring Beach, about half a mile west of Point Matinicock, where she now lies sunk in ten feet of water.

Capt. Jones of the Albatros, states that the accident was owing to the steamer's trying to cross her bows, they paying no attention to his signal. A fireman and two passengers are missing, one of the passengers supposed to be a Mr. Steele of New Haven. The remainder of the passengers brought to the city by the steamer Croton and Albatros. The Albatros has sustained but trifling damage.

Marine Disasters.

BOSTON, Nov. 1.—Arrived barque Ethan Allen, Limberg, from Algoa Bay, August 21, reports:—On the night of August 27, (no latitude and longitude,) during a heavy westerly gale, came in contact with barque Nubia, Mozambique for Salem, and lost bowsprit, cutwater, fore and main topgallant yards, &c., next morning, saw the Nubia with bowsprit gone; and probably badly damaged.

HALIFAX, Nov. 1.—The schooner Eagle has been lost; crew saved.

A French brig was recently run down off New-foundland; forty persons were saved.

The Hudson (Wis.) *North star* says that bout four years ago a boot and shoe house somewhere in Maine shipped to a farm in Hudson a box of boots and shoes, which only arrived on the 10th inst.

Maryland State Election.

Rioting in Baltimore.

NINE MEN SHOT—ONE DEAD.

BALTIMORE, Nov. 2.—The state election is now progressing. There is a great struggle in all the wards as far as heard from.

The Third Ward polls are blocked by rowdies, and the police are doing nothing.

In the Tenth Ward, Thomas Martin, the Reform Judge, has been intimidated and compelled to leave, and Mr. Kinsley, who was appointed by acting Mayor and rejected by the Council, has been re-appointed. The Reformers have been driven off. James Jeffers, son of Madison Jeffers, was shot in the side and beaten over the head by some Reformers whom he had maltreated.

In the Fifteenth Ward, Adam B. Kyle, Jr., merchant, of No. 88 Hanover street, reformer, was shot in the temple and was dying a few moments ago.—George Kyle, who came to the rescue of his brother was shot dangerously.

In the Fourteenth Ward, there is a desperate struggle. The reformers resisted with arms.

Sonny White, alias James Johnson, a notorious rowdy, was shot dead with a pistol ball.

Two other rowdies named Harris and Duffy were shot in the legs.

Henry Starr, a Reformer, was shot in the leg.

Wm. Stiles, a Reformer, was shot in the arm and leg.

In the 16th Ward, Theodore Woodall, was badly beaten.

Dr. C. Richardson, a Reformer, was pursued by the captain of the Thunderbolt Club, with a drawn sword. Dr. R. took refuge in a store, when the rowdies broke in the windows and tried to capture him, but fortunately they were not successful.

Judge Giles, of the U. S. District Court, met Sheriff Creamer in the street this forenoon, and told him in decided terms that he was to be held accountable for all the blood shed to-day. As a judge and lawyer he told the Sheriff he had the authority, and that it was his duty to interfere.

In the 18th Ward the rowdies took possession of the polls and gave the Reformers notice to quit.

Felix McCurley a Reformer, was badly beaten.

In the fifth ward the Reformers were driven off at an early hour. A son of Hon. Joshua Vansant was beaten for attempting to vote.

The first, second and fourth wards are also in possession of the rowdies, to the total exclusion of all who oppose them.

In the Twentieth Ward the rowdies are knocking down and maltreating, whom they please. The rowdies have a swivel on the ground.

In the 12th and 16th Wards gangs of rowdies from Washington, fully armed, are aiding the Baltimore roughs.

In the 15th Ward a boy has been mortally wounded. He was shot in the breast.

There is considerable talk of a Vigilance committee on the streets.

Instinct or Presentiment.

In Schubert's Spiegel der Natur (Mirror of Nature) a chapter on instinct, the following facts as proofs of a certain divine impulse in men:

A gentleman, an acquaintance of the celebrated French authoress, Mme. Beaumond, was about making a pleasure trip on the river with a party of friends. Everything was ready and he was just entering the boat, when his sister, a deaf mute, came suddenly and most anxiously running along, and seizing her brother's arm and coat, tried to keep him back, but finding this unavailable, she threw herself at his feet, and taking hold of his knees expressed by the most imploring gestures her wish that he should desist from going on the water. Touched by the painful, entreating expression in the face and posture of the deaf mute, several persons joined in the prayers of the poor unfortunate girl, and her brother finally yielded to their wishes. It was fortunate he did so, for the boat had gone but a short distance on the water, when a sudden gust of wind made it capsize. Several of the company found a watery grave, and he, who could not even swim, would no doubt have met the same fate if his sister, by some divine presentiment, had not prevented his going.

Once, on an evening, a rich and benign farmer felt, by some secret impulse, impelled to send, at a late hour, some articles of food to a poor family in the neighborhood. "Wherefore so late, cannot this be done as well to-morrow?" said those around him. "No," replied he, "it must be done now." While insisting the worthy farmer did not know what a blessing his benevolent action was just then to the tenants of the poor hut, for there the father—he who had to nourish and sustain the family—had fallen sick, the mother was infirm already, and the children had been crying for bread for more than two days—the youngest of which was nearly dead from hunger. Thus their most pressing wants were at once removed, and perhaps some lives saved.

Another gentleman, living near some coal mines in Silesia, awoke one night from his sleep and an irresistible impulse led him out of the back gate of his garden into the fields, where he arrived just in time to save the life of a miner, who, in climbing up a ladder, missed his footing and fell down the shaft into a coal-tub, which his son was at that time winding up, but by the increased weight was unable to do so now alone.

A venerable clergyman in England once felt, likewise, an unexpected desire to pay, late at night, a visit to a friend of his, whom he knew to be of a very melancholy turn of mind. Though extremely tired by the cares and labor of the day, and though the distance to his friend's house was very great, the venerable gentleman could not resist his secret impulse. So he went, and, strange to say, arrived just in time to prevent his friend from taking his own life. The nightly visit and friendly exhortations had such a wholesome effect on the depressed spirits, of his friend, that he never again attempted to commit suicide.

Prof. Buchner, at Marburgh, being once in very pleasant company, felt a strong desire to go home and remove his bed from its old place to another corner of his bedroom. He yielded to the impulse. Having done so, he felt again at ease and went back to his friends. During the night a large portion of the ceiling in the room, just where the bed formerly stood, crumbled down, and would no doubt have crushed him to death, had it not been removed from there.

The New York correspondent of the Charleston *Courier* says Lola Montez is living quietly in Brooklyn in a private family. Lola's name was registered on the steamer's books as Mrs. Heald, because she claims it as her lawful title. In all business matters she has always signed herself in that way. Lieut. Heald, her husband, died some years ago, possessing considerable property, and though Lola had left him, and relinquished all claims upon him and his estate, in his will he left her an annuity of £500 or $2,500. Lola professes to have experienced a change of heart, and her friends claim that she has been for some time leading a life of a devoted and sincere Christian.

This article is composed of neats foot oil and Gutta Percha, acting as a preserver of leather as well as polish. An article of this kind has long been needed, as every one knows that common blacking will not polish or oil over grease.

The attention of livery stable keepers, and those keeping carriages and harnesses, is invited to this article, as it is unsurpassed for the purpose of cleaning carriage tops, harnesses, &c. It is put up in large size boxes, convenient for the use of livery stable keepers, and also smaller sizes for the use of everybody who wish to purchese the best blacking in the market.

THE

GREAT WONDER

OF THE NINETEENTH CENTURY.

PROFESSOR WOOD'S HAIR RESTORATIVE.

Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, MAINE, Jan. 29, 1859.

Professor O. J. Wood & Co's:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the grey or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours, A. G. RAYMOND,

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Oxthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, January 12, 1858.

Professor Wood—Dear Sir; Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color, I have used no other article with anything like the same pleasure or profit. Yours truly,

J. K. BRAGG.

The Restorative is put up in Bottles of 3 sizes, viz: large, medium and small; the small holds 1 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.

O. J. WOOD & CO, Proprietors, 312 Broadway, New York, (in the great N. Y. Wire Railing Establishment,) and 114 Market st., St. Louis, Mo.

ARTISTIC ATTRACTION.

GREAT PREMIUM OFFER!

Eclectic Magazine.

Any person who will send us a new subscriber to the ECLECTIC MAGAZINE, his own name or any other, with the pay for one year in advance, shall receive by mail postpaid, either of the following beautiful Parlor Companion Prints. For two names and the pay he shall receive both prints. *The plates cost twelve hundred dollars.* They are new, engraved by John Sartain, whose price was to be $5 the pair. He writes:

"I have bestowed the utmost care and pains in the execution of these engravings; and the length of time employed upon them renders $1200 dollars a moderate estimate."

FILIAL AFFECTION—SUNDAY MORNING.

The print bearing this title represents a scene in front of a farmer's homestead, and in the distance, viewed through the open gate, is a church; while on the road between are groups obviously tending thitherward.—The party in the foreground are engaged in preparations for departure towards the same heaven-pointing spire; and a beautiful girl of about seventeen summers, waits, Bible in hand, by the garden gate, holding it open for the egress of the family, and smiling on the infant. The mother, still handsome, attends on the aged grandfather, adjusting with affectionate care a kerchief to protect him from cold, while he, seated upon a donkey, supports the youngest child in front of him.—Three other children are occupied one in sport with a dog, and the older ones in receiving instruction from the farmer himself, who is seated by the doorstead. An aged oak spreads its protecting arms over them all.

HOMESCENE—RETURNED FROM MARKET.

The market-cart has returned from the town, bearing a rich freight of purchases to the delighted young people, who are receiving them with eagerness. The farmer's wife not yet decended, has, with one hand, passed a gay new bonnet from the open bandbox on her lap, to the miss in her teens, whose ecstasy of admiration is unmistakable. The other she extends, with a bright new rattle, to the youngest darling, who, with joy, seems ready to spring from the arms of its fondling grandmother. The old gentleman, seated in the piazza, is in the act of adjusting his spectacles for the immediate perusal of the fresh newspaper spread on his knee; while the small boy and his sister are diving into the mysteries of the basket of new crockery, and other household gear, for gingernuts and other delectable condiments. The farmer is seen carrying a heavy basket up the steps of the porch. In the shadow which it throws we see coming events, for there pussy stealthily moves down on a brood of chickens, so young as to be still very like eggs.

Around are all various concomitants of a farm. The doves coo on the eaves, the turkeys and other poultry are about, and there, too, is "the iron-bound bucket that hangs by the well," while through the open house-door we see into the comfortable and well-supplied kitchen. This mansion colonnade presents a strong resemblance to Mount Vernon, with Washington sitting on the piazza, reading the paper.

This is an easy mode of obtaining two beautiful engravings worth $5 and the ECLECTIC MAGAZINE, which is confessedly the best magazine published, and the most beautifully embellished every month. It ought to be in every intelligent family. The September number begins a volume. Now is a good time to subscribe. September 1, 1859.

TERMS,

The ECLECTIC is issued on the first of every month. Every number contains one hundred and forty-four large octavo pages, double columns, on fine paper, neatly stitched in green covers, with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of six hundred pages each, with titles, indexes, embellishments. PRICE, FIVE DOLLARS. The postage is only three cents a number, prepaid, at the office of delivery. Specimen number, forty-two cents, postage-stamps.

Medicines.

Mothers!

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Second—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz:

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsion or fits, we earnestly recommend you to lose no time in procuring it. Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisments as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—as a last resort, concocted the idea of AN—a regular physician of twenty years' practice—BLOOD PURIFIER, by the use of which he was restored to perfect health. Within six months after the introduction of the said BLOOD PURIFIER, from which the Bronson Manufactory of AYAZING THE BLOOD, and applying the same to the system. The remedy was discovered by it. It has never failed in producing a bottle of BLOOD PURIFIER, if you are suffering from any complaints of a consumptive nature, such as Coughs, Colds, Bleeding, Tightness in the Chest, Loss of Appetite, or pain in the Stomach, Liver complaint, Fever Sores, Scrofula, or Kings Evil, Rheumatism, Nervous Debility, or your sleep is broken by Nervous Affections, take BRONSON'S BLOOD PURIFIER, and after a few days you will find it will restore you to perfect health. If your Liver is torpid or out of order, you will find it will soon be restored to its healthy and healthful action. In the latter case, or in all directions, see circulars.

Price $1 per bottle.

Special Diseases,

No. 28 Union St., Providence, R. I.

Circulars giving full information with references and testimonials, sent by mail. Also a Pamphlet on Diseases of Women with their causes and Private and Chronic Maladies generally, sent free by enclosing a stamp to Dr. H. N. MATTISON as above.

Dr. M. is a thoroughly educated physician of nineteen years practice, giving his whole attention to Obstetrics and Diseases of Females, therefore, having any important and difficult cases in this specialty will save much time and expense by applying either personally or by letter, to the REMEDIAL INSTITUTE.

H. N. M.—Accommodations for patients from abroad wishing to remain in the city for a short time under treatment.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the *choice of a physician*. And first, *let all quacks, impostors and humbugs alone.* If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a *specialty*, for no physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as successfully as one of the same ability who makes such diseases a *specialty*, and devotes his whole attention to them. Educated physicians hitherto have stood aloof from making private diseases a specialty, and hence they have been monopolized by quacks.—The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make *Private Diseases* a specialty, and yet their fame is an enviable as it is world-wide. It is in fact the only remedy for one of the most heinous and destructive systems of quackery in private diseases as practiced in all the larger cities throughout the country.—But to return. I said let quacks and impostors alone. Their advertisements fill the newspapers and are well calculated to deceive the inexperienced, made up as they are of the most extravagant *pretensions*, but without a shadow of *evidence* of the truth of what they say. Advertising in itself is no sin, but *deceptive* advertisements are an abomination; and no advertising physician is entitled to *any confidence whatever* who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a speciality which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure. H. N. MATTISON,

A CARD TO THE LADIES.

DR. DURONCA'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully vexatious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptives among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Churchstreet, and at 42 Washington Square, opposite House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. SOLE IMPORTERS,

No. 338 BROADWAY, N. Y.

This DELICIOUS TONIC especially designed for the use of the MEDICAL PROFESSION and the FAMILY, possesses those *intrinsic*-medicinal properties (Tonic and Diuretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as beverages, under the titles, "Aromatic,"—"Cordial,"—"Medicated," etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a *new era* in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

It is distilled from the best barley, flavored with the best Juniper berry, and impregnated with a variety of herbs of highly medicinal properties, by a process of excepting known only to its inventor.

AS A MEDICINE

It is the only Gin in Holland recommended by the faculty there, and the importers have the testimony of the leading physicians of Germany and America, to recommend it for the Cure and Prevention of the following diseases:

Asthma, Debility, Heartburn, Diarrhœa, Indigestion, Dropsy, Loss of Appetite, Dyspepsia, Nervous Headache, Eruptions, Physical Prostration, Fever and Ague, Rheumatism, Female Irregularities, Rupture, Gout, Salt Rheum, Stricture, Dysentery, Hysteric Affections, Kidneys, Bladder, Colic, Decline, Stomach

Affections of Bladder, " " Urinary Organs, " " Generative Organs, Affection of the Joints.

AS A DRINK,

It is at the same time pleasant, palatable and aromatic; it counteracts the effects of overindulgence and excess, and being free from injurious particles, it is not an intoxicating beverage, and is, without doubt, the safest as well as the most harmless alcoholic drink in existence; it may safely be taken by the young and old of both sexes.

FOR THE LADIES,

It may be termed the Guardian of Health, being restorative and soothing as well as stimulating and tonic, and invaluable for its regulating properties in all cases of functional derangement, so incidental to their sex.

FOR THE NURSERY,

While marvelous in its effects for the relief of pains in the stomach and bowels, it is more powerful than any vermifuge for the expulsion of worms, in children of all ages.

HOWARD ASSOCIATION.

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis,** to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of, extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important and despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. George R. Calhoun, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.
